Peace of Mind Guarantee®

Ken Helmer, Chief Deputy, Morton County Sheriff's Dept. Mandan, North Dakota
"Kenall lighting is stronger than our toughest prisoners."

Kenall lighting fixtures received a "life" sentence at the Morton County Correctional Center due to their durability, cost efficient operation and low maintenance costs.

Designed in accordance with ACA guidelines, the correctional center uses Kenall fixtures in its cell blocks, day rooms and recreation areas. Chief Deputy Ken Helmer says, "Kenall lighting is stronger than our toughest prisoners" because it deters inmates from attaching blankets or sheets to them for attempted escape or suicide.

"One of the outstanding features is that it's impossible for prisoners to obtain access to the inner portion of the lighting fixture. They can't break or remove the lamp, and they can't hide anything inside of them. It makes our facility safer," Helmer explains.

And Kenall's maintenance costs? As Helmer sums it up, "we haven't had any!"

That's "Peace of Mind."

For more information or a free product guide, call Kenall toll free at 1-800-634-5013.

GUARANTEE:
Kenall high abuse luminaires are designed and built to take exceptional physical punishment. When installed according to our instructions, Kenall will repair or replace any fixture rendered inoperable due to physical abuse within three years of purchase. Thereafter, Kenall will replace any refractor/diffuser broken during the life of the fixture free, subject to a handling charge equal to 25% of the published list price.

1989 DIRECTORY

JUVENILE & ADULT CORRECTIONAL DEPARTMENTS, INSTITUTIONS, AGENCIES & PAROLING AUTHORITIES

UNITED STATES AND CANADA

ACA

FOREWORD

Nineteen eighty-nine marks new beginnings for this directory—a second half century of publication, a new desk top publishing process and a changed format.

What remains the same is the important information on the United States and Canadian correctional systems: names, addresses, phone numbers, populations, capacities, programs, etc. A new feature is the addition of FAX numbers when they were available.

An indispensable resource, the statistical summaries have been updated and will be expanded further with year-to-year comparisons in the concise *Vital Statistics in Corrections* due to be published in the Spring of 1989. *Vital Statistics in Corrections* explores the compensation and benefits of correctional personnel and should be considered as a companion publication to this directory.

The changes in corrections as exhibited through these pages tell a story of enormous growth and the continued facility crowding that came with that growth. The directory provides the average daily population for the institutions listed. We can look back in the previous 50 directories and capture the same information and realize that crowded facilities have always been with us, except during times of war.

And so it goes. Corrections cannot keep up with social policy and trends in criminal justice; according to history it never has. Corrections professionals, however, continue to make the best of intolerable conditions. We can only hope that someday, maybe, the men and women of the United States will see the situation for what it is and allow corrections to be what it should be.

Corrections' volatility and political influences, especially following an election year, make it impossible for the directory to be up to date at the time of publication. However, we make every effort to keep a current directory in the research department; please do not hesitate to contact the editor if you need information. We welcome any comments you might have for improving any aspect of this directory.

The Association appreciates the efforts of the participating corrections officials and staff who yearly provide the information necessary for this publication. Their generous spirit of cooperation and professional concern make possible the publication of this important directory.

MEETINGS SCHEDULE

The ACA's two annual conventions—the Congress of Correction, in its 119th year, and the Winter Conference—are the catalysts for the advancement and growth of the Association. These international meetings give corrections practitioners from all sectors and levels of corrections and related fields the opportunity to exchange information and ideas, participate in enriching workshops and programs, and explore the latest technologies at the popular exhibit shows held in conjunction with each meeting.

Each conference features nationally known keynote speakers and experts from all areas of corrections who share their knowledge, skills, and expertise in the wide range of workshops offered. To further enhance the total convention experience, local correctional facility tours in the "host state" are available. In addition, a special family auxiliary registration is available allowing a registered delegate's spouse to attend all convention functions for a low price. Several fun-filled, exciting family tours offered can make an ACA convention the perfect family vacation as well.

Each year, the meetings take place in a different region of the country, allowing everyone an opportunity to attend. Thousands of delegates, including chapters and affiliates of the Association, gather to express ideas, influence national correctional policy, and promote professional development.

Be an active voice in corrections by attending the ACA's annual meetings. For further information, call the Conventions Department: 1-800-888-8784.

ARTHUR SOLVES OVERCROWDING QUICKLY AND ECONOMICALLY!

FLEXIBLE Your Arthur modular correctional facility has built-in flexibility to meet your particular needs. A dental unit, infirmary, nurses' station, X-ray facility, darkroom, secure pharmacy, food service areas, or dormitories with showers, lockers, and lavatories. Arthur can deliver a total package. And, by reputation, when you choose Arthur, you can count on occupancy on the date promised!

AFFORDABLE Less expensive than conventional construction methods to begin with, Arthur prison facilities deliver ongoing economy through energy saving and low maintenance features. And, Arthur will provide 100% financing to meet the parameters of your particular budget.

QUALITY Arthur manufactures wood frame structures to meet standards for minimum and medium security buildings; steel structures to meet more stringent standards for maximum security buildings. All are designed in accordance with state and local building safety, fire and handicap codes and regulations. They are inspected and approved by a licensed third party agency to certify code compliance.

FAST We start with proven designs. Then, we cut through the preplanning stages. Our experience in the correctional industry gives us familiarity with all types of specifications and standards, so we anticipate and routinely meet even the most unusual regulations. THE BEST BAR NONE

SAE 563 sintered-iron bushings, impregnated with oil, facilitate free and constant rotation of the bar without allowing for counter-rotation of the weights. For better lifts and greater safety. Further, they are wear-tested for at least 20 years.

The alloy steel bar has a minimum strength of 185,000 p.s.i. It's heat treated to a 38 Rockwell, with a maximum bend of 1/8". A bigger bend and we don't ship it to the Olympics or to you.

A machined sleeve, located inside this tube, brings the bar's weight to the mandatory 44 lbs. (20 kgs.). On the mark.

This machine-raised ridge on the seamless steel ring reduces metal-to-metal friction and eliminates lateral movement of the inside piece, while still allowing for easy rotation. No one else has this ridge, which is why their bars eventually bind up, and YORK bars don't.

Excellence in a name.

Medium diamond knurl ensures a better grip. Your athletes can chalk up to their heart's content they'll still enjoy the friction necessary for a solid grip.

The spring-pin on this cold-finish seamless tubing secures the bar's ingenious workings.

And why you should buy it

Take a good look at our Olympic Bar. You'll find that it's the best bar your athletes can train with. Forty-four pounds of skilled craftsmanship. Eighty-six and five-eighth inches of American ingenuity. That's why it's the only bar made in the Western Hemisphere sanctioned to use the "Olympic" name. And our quality and production standards are so high that there's absolutely no difference between the Olympic bars used in international competition and the ones used in your gym.

So study its features, then compare. You'll find that Olympic bars from YORK are the best. Bar none.

Seamless steel ring is pressure-fit onto steel tube, then the entire piece is machine-finished into a precise 1.9375" diameter. The result is a free-turning feat of engineering that guarantees a good tight fit with YORK plates.

Machined, seamless cold-finished steel collars are press-fitted onto bars under 28,000 pounds of pressure. No matter how much they're abused, they won't move. Period.

Notes:

1. AR—Act 774 of 1983 changed method to lethal injection, with clause allowing those already under death penalty the option of electrocution.
2. DE—If convicted prior to 6/86, inmate may choose method of execution.
3. MO—Legislation authorized lethal injection as option, effective 8/13/88.
4. MT, NH—Inmate may choose method of execution if convicted before 1986.
5. PA—As of November, 1982, sentenced prisoners were taken out of general population and put into Administrative Maximum Custody.
6. PA—Proposed legislation seeks to change to lethal injection.
7. FBP—Manner of exeecution is in accordance with laws of State in which Federal sentence is imposed. The sole offense for which capital punishment is available is Aircraft Piracy, 49 U.S.C. 1472 (i).S. 1765 would amend Federal criminal laws to provide procedures to utilize the death penalty for other offenses, such as homicide, where it is now authorized but cannot be used because of procedural inadequacies. Legislation is supported which proposes the death penalty for those inmates serving life sentences who murder while incarcerated.

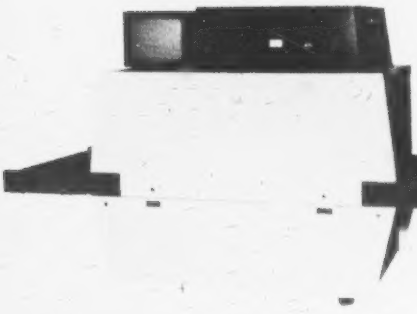
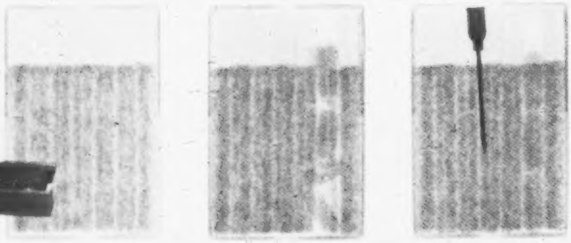
Can you tell which packages contain the narcotics?

LINESCAN® can.





*Throughout the world the low-cost **Linescan System Four** spots danger in visitors' reception rooms, lobbies, and mail rooms. This compact System is **mobile**, with large rubber casters and conveyor ends that fold so it can be rolled easily from one location to another.*

Linescan System Four

Visitors can bring in big problems in small packages if you don't really "look inside." Items that might not be detected with the naked eye — syringes, narcotics, weapons — can be discovered easily with a Linescan Conveyerized X-ray Inspection Unit. Danger to security guards and other personnel is sharply reduced, as you can view "inside" details vividly, easily, and quickly. Objects are clearly viewable without distortion, and a zoom option is available for closer inspection of suspect areas.

We have a wide range of security units to select from, including the System Seven which inspects objects up to 40" x 40" x unlimited length. And all Linescan Systems are backed by our worldwide training and service network, so write or phone for information. The more you want to see, the better Linescan looks.

DIRECTORY USER'S GUIDE

Information provided in this directory on state, federal and territorial adult and juvenile correctional systems, and Canadian federal and provincial systems is as of June 30, 1988. The data will assist the user in understanding the total structure of correctional departments in any given jurisdiction.

Statistical summaries preface the lists of institutions and provide a vital nationwide look at correctional systems, personnel and offender information.

The listings of adult and juvenile services include the following:

- Organizational overview
- Central office administrative staff
- Institutions
    - Staff names and titles
    - Year opened and capacity
    - Average daily population and degree of security
    - Offender type (felon, misdemeanant, etc.)
    - Age limits
    - Accreditation status
    - Cost of care and number of employees
- Community based programs
- Parole Boards (function and members)
- Administrative boards
- Parole and aftercare services
- Probation services

Every effort has been made to ensure accuracy and thoroughness; however, the Association cannot assume responsibility for errors or omissions. When updated information was not provided, data from last year's edition was assumed correct and repeated.

Changes or new information to be recorded in future editions of the directory should be forwarded to the Association. Comments or suggestions for improvement are welcome.

Note: Previous issues of this directory contained a Personal Locator. It was not forgotten in this 1989 edition, but "new" technology prevented us from providing the resource to locate individuals throughout the directory. We will work on it for the 1990 directory!

You need security for your new or replacement keys...

FOLGER ADAM
13TY3

We give you simplicity and convenience, too.

At Folger Adam Company, we do it by the numbers, so ordering new or replacement keys is easy. Two months, two years, or twenty years, for that matter, after installing a system, you can order additional keys or cylinder re-key sets without fear of cross-keying or interchanging between systems.

You see, Folger Adam Company is your most respected source for security hardware and systems. Because we go just a little further. We keep records of every key combination we make and ship. If additional keys are needed, getting them is simple. When you contact us, we know what keying exists, and how to fit new products into the system to meet your special needs.

Using a sophisticated computer-selection program, we can assure you that the equipment you order will do the job exactly the way you want, and maintain the level of security you demand. Our method of assigning codes is so precise that it enables us to not only duplicate the key, but also identify the state, city and using institution.

Our keying service is just one more of the ways we take that extra step to earn your trust. If you need replacement keys or are considering expansion of your security system, come back to the experts who built it in the first place—Folger Adam Company—where you always get more service than you expect.

For information on keying services or any of our products, write or call the Customer Service Department Representative for your area.

ARKANSAS

ORGANIZATION AND ADMINISTRATION

The State Penitentiary Board was originally established through Act 1 of 1943. Act 50 of 1968 reorganized the State Penitentiary as the ***Arkansas Department of Correction*** *and created two major boards: The* ***Board of Correction*** *and the* ***Board of Pardons and Paroles****.*

The Board of Correction consists of a Chairman, a Vice Chairman, a Secretary, two regular members, a non-voting ex-officio member who represents the Commission on Community Based Rehabilitation and a non-voting advisory member who is actively engaged in law enforcement. Members of this Board are citizens of the state and are appointed by the Governor to staggered five-year terms.

The chief executive of the Department of Correction is the Director. There are three main areas of responsibility: ***Institutional Services, Field Services,*** *and* ***Health & Correctional Services****. Major divisions are Business Administration, Maintenance & Construction, Legislative & Public Relations, Compliance, Internal & Classification Affairs, Chaplaincy Services, and Information Systems. The Board of Pardon and Paroles is an independent board responsible only for pardon, parole and clemency action. Adult probation services are provided by the Adult Probation Commission, created in 1983 by Act 151.*

Juvenile institutions are the responsibility of the ***Department of Human Services, Division of Children and Family Services****. Juvenile services come under the jurisdiction of the circuit and chancery courts, except where additional services are provided by contractual agreements with the Division of Children and Family Services through a network of community-based centers throughout the state.*

ORGANIZATION AND ADMINISTRATION

*In 1977, the **Department of Corrections** was formed for adult corrections, retaining the same sentencing system as it had as a division of the **Department of Institutions**. Faced with substantial growth and the need to assure effective utilization of resources, the Department reorganized on December 1, 1987, to meet those challenges and achieve new directions in organizational goals.*

*The **Division of Youth Services**, under the Department of Institutions, provides institutional and aftercare services for juveniles.*

*The **Board of Parole**, an independent agency, grants parole to adults only. Parole supervision is administered through the **Division of Community Services**. The **Juvenile Parole Board** is independent.*

*Adult and juvenile probation services are a function of the **Colorado Judicial Department**.*

ADULT INSTITUTIONS

*Commitments (of the age 16 or above) to the **Department of Corrections** are adjudicated in adult court as felons or misdemeanants and sentenced to a definite term having a fixed minimum and fixed maximum sentence. Sex offenders may be sentenced to an indeterminate term of from one day to life.*

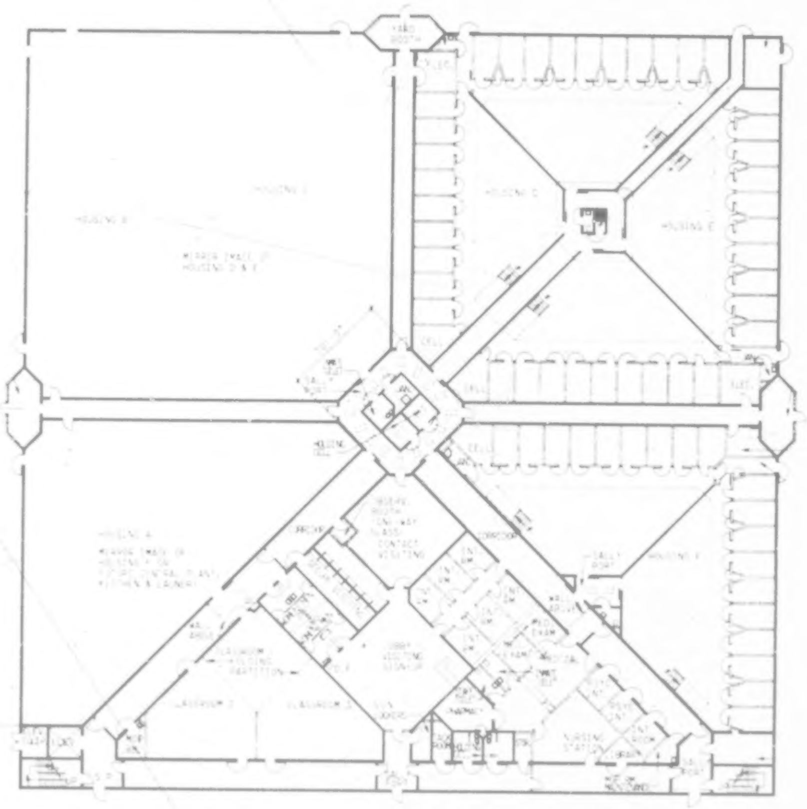
Your Goals + Our Controls = Solutions.



Program Management • Project Management • Design/Build • Leaseback

Cost-effective solutions when you need them. Just tell us what you want and we'll get you there. Not with a lot of rhetoric and preconceived "off-the-shelf" solutions. We make projects happen with qualified professionals who know how to plan projects and work hard to deliver them.

And project delivery is what counts, based on our experience with more than 9,000 beds in new state-of-the-art correctional/detention facilities since 1982.

If you need a firm that specializes in Criminal Justice Facilities – a firm that delivers projects, not just promises – call Peter P. Andreu, Jr., AIA, Director of Vanir CM's Criminal Justice Facilities Group, at 916-444-3700.

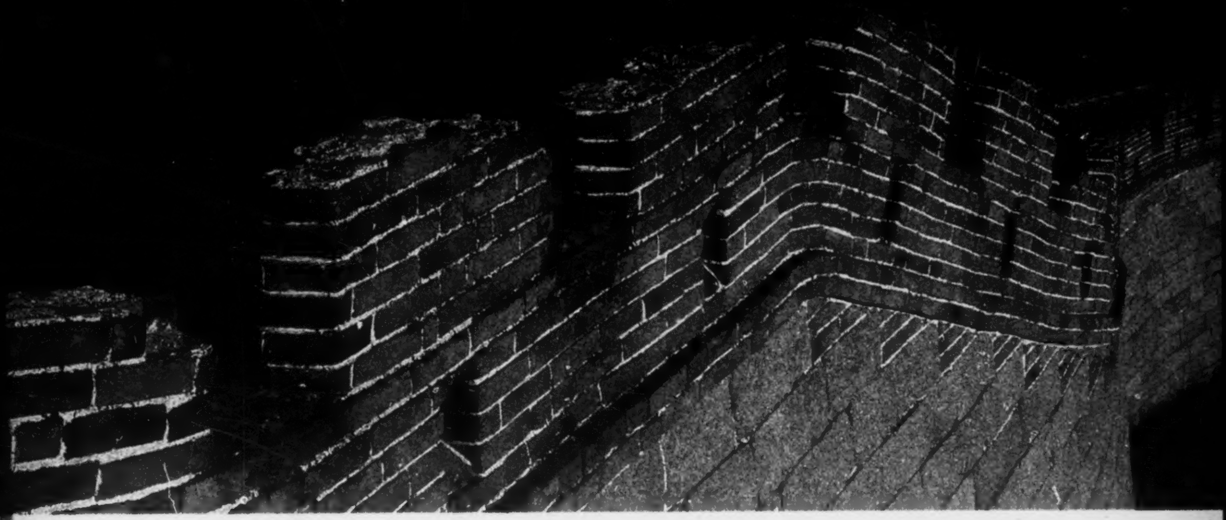
Since the beginning of history, people have gone to great lengths to perfect security systems.



History has proven: "Stone walls do not a prison make."

Hence the reason for modern security systems: but these systems can range from good to bad, like Dr. Jekyll and Mr. Hyde, and they can be just as monstrous, particularly for staff hired to manage them.

That's why D.W. Thomson designs advanced computer security systems with undeniable ease of operation.

Systems that dramatically increase security, and in doing so, greatly improve security for staff and surrounding communities.

Systems that provide a faster payback period by reducing manpower requirements.

Systems that do not require the need for operating personnel to be experts in technical aspects of the systems themselves.

Systems with a proven track record of performance.

To date there has not been a single incident of escape from an institution in which a "D.W. Thomson" integrated system has been installed that could be attributed to the failure of the system.

Now, that's really something for the history books.

YOU'RE NEVER ALONE WITH DIGILARM.

SMALL, SILENT, DEPENDABLE PERSONAL SECURITY SYSTEMS.

Digilarm is the most advanced personal security technology available today. And it costs less than older, less effective systems. That's why it's the system America's prisons will be using to protect visiting attorneys, civilian workers, government officials and guards.

Digilarm is small enough to fit in your pocket, yet powerful enough to send a signal more than a mile. It's breakthrough technology and it's already changing the way people look at personal security systems.

Press the transmitter button twice and a silent alert signal is sent to miniaturized receivers for immediate guard response. It's instant. It's digital and it's programmable. It even works through concrete and steel.

And all Digilarm system components, transmitters and receivers are standard so you won't outgrow this incredible technology.

Call and arrange for a system demonstration today. Experience the power for yourself and see why Digilarm was selected by the New York State Department of Corrections for all New York prisons.

Don't take chances.

CELL CHECK offers solutions to correctional facility electronic security problems. For example, CELL CHECK'S interval timed watch tour program provides hardcopy printout each time your officer checks into a tour station. – An important feature for liability protection. JUVENILE PROBATION AND AFTERCARE SERVICES

Florida's 67 counties are divided into 11 districts. A district administrator administers all programs within a district. Programs for delinquent and dependent children, including the delinquency community control (probation) and furlough (aftercare) program, and delinquency intake are administered under a ***Children, Youth and Families (CYF)*** *organizational structure. Unit offices are strategically located throughout a district to serve delinquent offenders under supervision.*

The Community Control and Furlough program provides supervision of juveniles placed on community control by the courts, and for those juveniles released on furlough from commitment programs (training schools, halfway houses, etc.). Community services and restitution are a major part of community control. Juvenile offenders work in these programs for a specified number of hours as part of court-ordered supervision. Communities throughout Florida have provided hundreds of work sites for juvenile offenders.

At the headquarters level in Tallahassee, the CYF Program Office acts in a staff capacity to field staff by providing uniform policies and procedures through program manuals and administrative rules. This office is also responsible for quality control, interprogram coordination, monitoring of programs, and other functions as prescribed by law.

Each district also has a CYF Program Office to coordinate programs for dependent and delinquent children.

ORGANIZATION AND ADMINISTRATION

*Under the **Department of Corrections**, the **Facilities Division** is responsible for adult offender institutions (state and county) and transitional centers (work release, pre-release, and adjustment centers) and the **Probation Division** for services on the state and county level (field supervision, Probation/Restitution/Diversion Centers).*

*The **Board of Pardons and Parole** is an independent agency which reviews adult parole cases and provides field parole supervision. It is also the only state agency vested with the power to grant clemency.*

*Under the **Department of Human Resources' Division of Youth Services**, juvenile institutions, parole and the majority of probation services are provided by county-operated and financed juvenile courts. In several counties, these responsibilities are shared by both Division of Youth Services staff and county staff.*

The who, what, and where of outstanding insignia.

Who else but V.H. Blackinton? Since 1852, we've been setting the standards in insignia. The result is a selection that's larger than that of all of our competitors combined. (With new styles and sizes being added all the time.)

What's new? Our latest addition is the popular ⅜″ size letter combinations for department and grade designations, now giving you four sizes to choose from. This line — as well as our entire name bar line — is also more competitively priced than ever before.

Where is it happening? You'll find Blackinton® insignia displayed in leading police departments across America. For custom-designed insignia of all kinds, **contact your local Blackinton® dealer.**

JUVENILE INSTITUTIONS

*Original jurisdiction in juvenile cases is at the District (Magistrate) Court level. These courts cannot commit directly to an institution, but commit instead to the **Department of Health and Welfare**, with or without a recommendation for placement. The Department then makes placement decisions regarding youth committed to the department's custody. A youth is under the purview of the juvenile code up until the age of eighteen, although the department may maintain jurisdiction of a committed youth up until the age of nineteen. The maximum age of jurisdiction by the department was reduced from 21 to 19 with the enactment of the amended Youth Rehabilitation Act on July 1, 1985.*

The department may not commit status offenders or misdemeanants to the State Youth Services Center.

A Checklist from Sverdrup for Your New Correctional Facilities Project

In the sixty seconds it takes to complete this checklist, you may find a new way of looking at your construction project.

- ☑ Does your site acquisition team offer approaches which help win public acceptance for your new facility?
- ☑ Can your design/construction team offer solutions to your financing and cash flow problems?
- ☑ How does the cost per square foot compare to other facilities in your region?
- ☐ Are your security and support systems designed to accommodate overcrowded conditions and other contingencies?
- ☐ How easily can your new facility be expanded?
- ☐ Does your facility's design have the flexibility to adapt to new requirements in security and prisoner control?
- ☐ Does your design/construction team have the management controls and the authority to resolve conflicts in a timely and efficient manner?

***If you've checked three or more boxes, you should send for Sverdrup's new checklist for evaluating correctional facility design and construction.**

As designers and builders of correctional facilities, Sverdrup pays special attention to the problems which often cause these projects to falter.

For a copy of our complete facility design and construction checklist, write Bob Messmer at Sverdrup Corporation, 801 North Eleventh, St. Louis, Missouri 63101. Or call (800) 325-7910, (In Missouri, (314) 436-7600.)

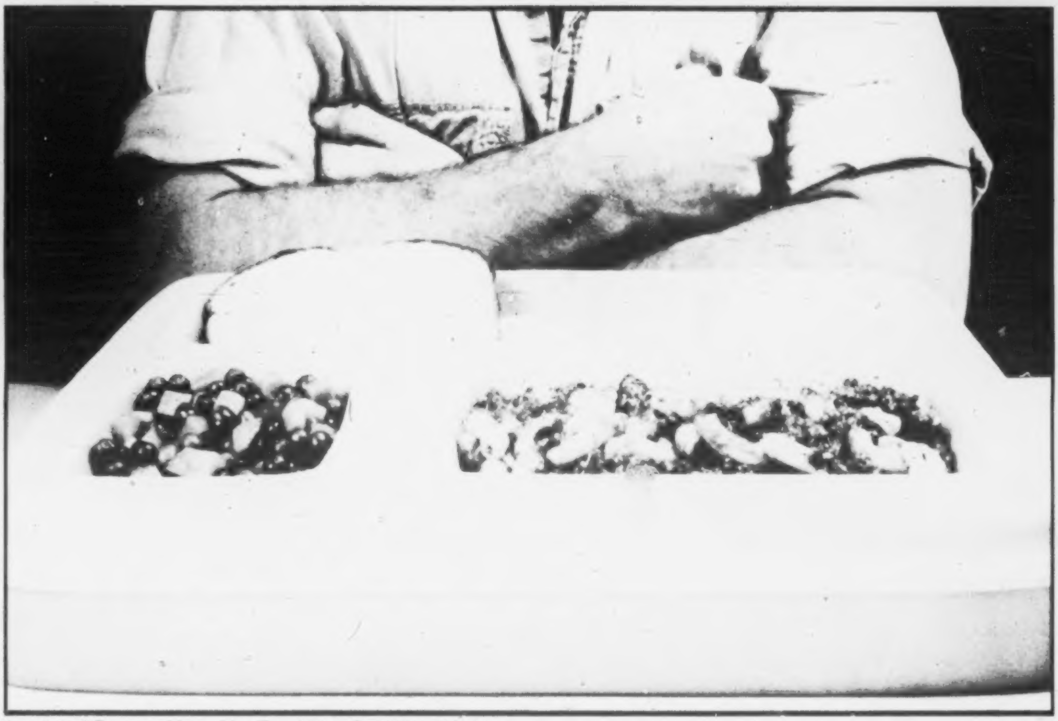
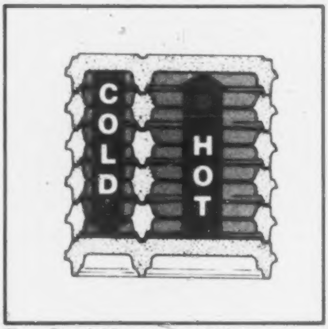
Holds Heat ! Holds Up !



Insulated Servers Keep Hot Food Hot, Cold Food Cold.

The Heat's On To Keep the Heat In The Meals You Serve

Want to hold required 140°F serving minimums and find durable serviceware to do it with, too?



Tray Stack Keeps Food Hot
To Required 140°F Minimums.

Use Aladdin servers. They capture the heat that's cooked into food to keep it hot. Urethane foam wrapped in a tough, molded shell, insulates it. Perfect for isolation and satellite meals.

Because servers stack in an inter-locking tower, heat rises from each serving compartment, keeping food items above warm.

Cold food items in the stack, meanwhile, keep each other chilled. Materials and seamless molding technique make system impact- and torque-resistant. Protects your investment.

JUVENILE SERVICES

Juvenile institutions, intake, probation, and aftercare (parole) services all come under the jurisdiction of the ***Juvenile Services Agency****. The majority of children who come under the preview of the Juvenile Services Agency are supervised by juvenile counselors within the community or are placed in private community-based residential programs. Less than 10 are committed to institutional facilities by the courts. Commitments are for indeterminate periods of time. At the time of commitment, the Juvenile Services Agency assigns an aftercare worker to the case whose job is to prepare the community for the child's return as well as help the institution prepare the child for eventual release back into the community. The date of release is determined by the institutional staff and the aftercare worker who together make their recommendation to the courts for final approval.*

Save 1/3 the space on storage of prisoners' effects.

Correctional institutions all over the country are using White Conveyors for the storage of prisoners' effects. Many centers store these effects in garment bags or on hangers. The conveyors need no aisles and so can be "caged" or "walled in" with just a small section open for the attendant. Retrieval time is dramatically reduced. A push of a button automatically brings the proper conveyor position to the attendant. Prisoners' effects are thus stored in an organized, easily retrievable fashion.

If your space is at a premium White Conveyors may be the answer.

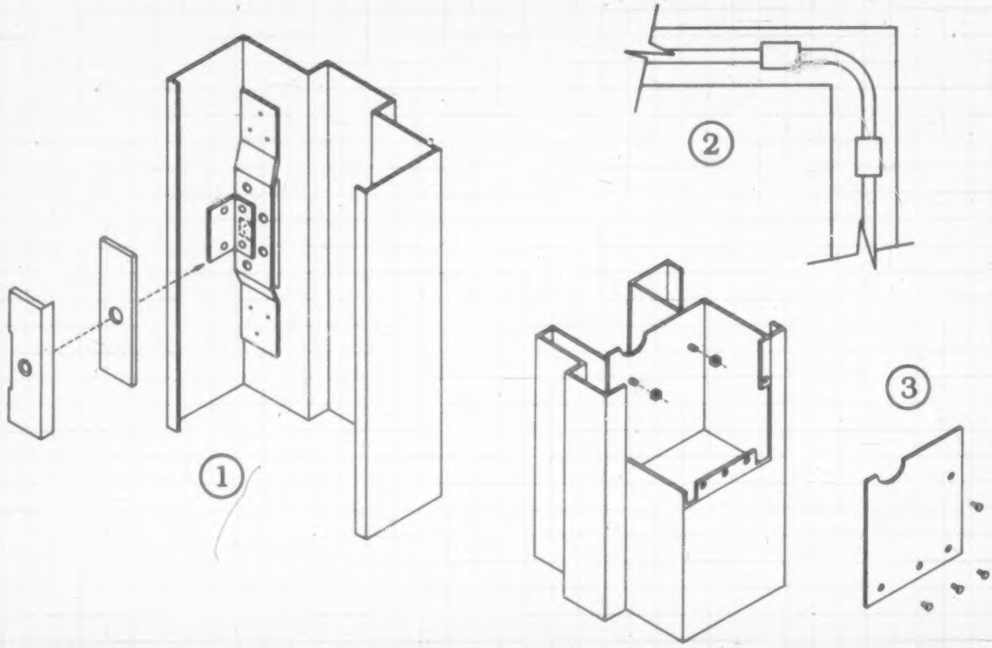
HOW TO AVOID THE HIGH COST OF CHEAP HOLLOW METAL



① LEAK TIGHT GROUT GUARDS ON ALL HARDWARE PREPARATIONS

② FURNISHED 3/4 INCH EMT CONDUIT AND SWEEP ELBOWS FOR EASY PULLING OF WIRE

③ UNITIZED PREPARATIONS FOR JAMB MOUNTED LOCKS SUCH AS 120 SERIES FURNISHED WITH THREADED STUDS EQUIPPED WITH LOCK NUTS, AND COVER PLATES FASTENED WITH 1/4 - 20 TORX DRIVE SECURITY SCREWS

Cheap hollow metal doors and frames can strain your nervous system and drain your profits. When you consider all costs involved such as errors in manufacturing and delays in delivery you will find the lowest bid is not always the lowest cost installed.

These are just three of the many extra features (over and above minimum specifications) we build in at Habersham Metal Products Company to reduce installation time and to save you money. For further detailed information call or write us at...

ADULT PAROLE AND SUPERVISED RELEASE AUTHORITY

The Commissioner of Corrections has responsibility for parole and supervised release. With the exception of the parole of inmates with life sentences, the Commissioner delegates this authority to the Office of Adult Release. The ***Office of Adult Release*** *consists of the Executive Officer of Adult Release and three department staff who are assigned part-time to assist the executive officer. An advisory panel composed of departmental employees advises the Commissioner regarding inmates with life sentences. The delegation of authority provides for the Executive Officer of Adult Release to grant parole and work release, to revoke parole, work release and supervised release, to discharge persons under indeterminate sentences, and to approve the condition of parole, work release, and supervised release. Parole and supervised release responsibilities were formerly performed by the Minnesota Corrections Board (parole board) which was legislatively abolished on June 30, 1982.*

DOCU·VISION

precision video documentation systems

DOCU-VISION'S D/VAS®

As more states and municipalities became involved in video taped and distributed court proceedings, Docu-Vision determined that the available technology was not being effectively utilized.

A simple, self-contained and inexpensive system needed to be developed for the nation's courts. After four years of study, Docu-Vision introduces the D/VAS® system (Docu-Vision Video Arraignment System).

Docu-Vision's D/VAS® consists of four interactive elements, each self-contained, that, when integrated, will allow typical courtroom proceedings to be conducted without the physical presence of the defendant in the courtroom.

With D/VAS®, the time consuming parade of shackled prisoners and defendants from the jails or prisons to the courtroom is greatly reduced. A major reduction of transportation costs, housing and processing costs, and the virtual elimination of the potential for escape, accidents and other acts of violence, justifies the D/VAS® concept.

The young, first-time, and non-violent offenders will not be transported with or grouped in holding cells with repeat or hardened felons. Children may be spared the trauma of courtroom appearances in cases of rape, incest and molestation. Pretrial motions, depositions, and arguments could be video documented and entered into the court record at the time of the trial and court managers will be able to budget the allocation of funds and the resources of personnel in a substantially more efficient manner.

The possibilities of the D/VAS® system are virtually limitless and its use will continue to expand as the judicial system absorbs the technology. In recent years, pressed by growing caseloads and budget constraints, more and more video is employed as a resource. D/VAS® from Docu-Vision provides an affordable, dependable and flexible answer to this growing national concern.

Warren Burger, former Chief Justice of the United States Supreme Court, stated the load on the court system will double by the year 1990 and, at the present rate of expansion, would require fifty thousand federal judges. Recent statistical studies show that civil cases in the United States have grown by 35%, while criminal cases are up by 37% and it is anticipated that caseloads will double in just four years. These statistics, combined with the dramatic increases in costs for the operation of the court systems, including transportation, personnel, paper handling, etc., have created an economic crisis in all facets of the American justice system, particularly in the area of criminal proceedings.

Docu-Vision Electronic Court Reporter (ECR) is integrated in the video arraignment module. A simple command into the system's computer changes the mode into an ECR system. No additional equipment is needed, other than the addition of the backup camera to have a full-blown court reporting system. The records are 100% accurate. The clerk need not spend time in scheduling or rearranging court proceedings to fit staff availability.

The video and audio records reflect the true court proceedings, which include voice inflections and body language of the participants. With the Docu-Vision controls and judges' panel, testimony can be delivered in the same way as presently done using live reporters. The tremendous savings in court personnel salaries, the always available ECR, and the ease of transcription, if needed, makes the Docu-Vision ECR system an economical and effective choice.

COMMUNITY SERVICE CENTERS

The Community Service Centers are a pre-release concept designed to ease the re-entry of the released, adult offender into the community. Houses not more than 50 for a period of about four months. Residents work a regular full-time job or attend school or vocational training. Residents eligible for admission into the program are those who have achieved minimum custody status in the institution, who meet stipulated admission criteria and who are within seven months of release to parole or termination of sentence.

ADULT PAROLE BOARDS

The State Parole Board is a full-time Board composed of a Chairman and eight Associate Members appointed by the Governor with the advice and consent of the Senate. The Board is comprised of panels for adult, young adult and juvenile cases. The members are further paired to hear county jail cases.

Each panel consists of two Associate Members with the Chairman sitting as the third member of each panel. The Board is the paroling authority for all offenders committed as adults, young adults or juveniles in the state and county jail inmates with terms in excess of 60 days. The Board also investigates and advises the Governor on all applications for executive clemency. In 1984, a Victim Input Program was started. The Board will consider the testimonies of victims of first and second degree crimes in making decisions.

ADULT AND JUVENILE PROBATION SERVICES

As a judicial function established by statute, probation is a disposition which may be imposed on both adults and juveniles as an alternative to confinement in state or county facilities. The Supreme Court, under the leadership of the Chief Justice, is responsible for setting statewide probation policy. The Assistant Director for Probation at the state level Administrative Office of the Courts (AOC) coordinates day to day programs and activities, maintains responsibility for interstate cases, and acts as consultant to the Judiciary on probation matters. The state also manages a line operation, Intensive Supervision Program.

Assignment Judges of each judicial district make recommendations for Vicinage Chief Probation Officers. These individuals are appointed by the Director of the AOC with the approval of the Chief Justice. Assignment Judges also appoint Probation Officers, fix salaries and administer day to day operations of the local probation departments. Operating costs are paid for primarily by the counties.

Misdemeanants and felons may be placed on probation by the court with the Corrections Department supervising them.*

In some cases, the judge may decide to send an adult offender to an institution for a 60-day diagnostic evaluation commitment. After the evaluation is made, the judge makes a decision to sentence or place on probation.

The **Executone**® Maximum Security Telephone System:™ Added Safety for the Correctional Officer.

In a correctional institution, the telephone is far more than just a communication device. It's a tool to safeguard lives.

That's why EXECUTONE, in cooperation with the Federal Bureau of Prisons, has designed the Maximum Security Telephone System: the most advanced computerized telecommunications network for correctional institutions ever conceived.

The Maximum Security Telephone System anticipates virtually every possible security situation. Take, for instance, the System's special "No Dial" feature that automatically generates an alarm if a phone is left off the hook longer than 14 seconds. Or the "Watch-Call Station" feature that simplifies and safeguards inmate head counts. To call in, officers simply dial a 3-digit code that instantly connects them to the "Watch-Call Station" located in the control center. Up to 32 officers can call in—and confer—simultaneously.

The System also provides special phones in key security areas like control centers, guard towers, sally ports and emergency personnel areas. Should an emergency arise, an officer need only dial a 3-digit code to set off all security conference phones simultaneously.

For all its technological sophistication, the System is remarkably easy to use, install and maintain. And its price is competitive with systems that are currently used in correctional facilities but do not offer these advanced security features.

So play it safe. Call the EXECUTONE experts and learn more about what this special System can do for your facility.

BI's Home Escort™ System... Instant Tamper-Alert.

Electronically-monitored house arrest that's the most tamper-resistant, reliable, and accurate available.

Making BI's Home Escort System part of your corrections system can alleviate the following problems: Dangerous overcrowding; escalating costs that threaten your budget; shortages of trained officers caused by the need to supervise probationers and parolees. And it keeps minor offenders at home, away from hardened criminals.

A police officer, a criminal court judge, and over $1 million in high-tech research and development make Home Escort the best available today. Compare the features:

Tamper-Resistant
Any attempt to open the case or to remove or cut the band is signalled instantly to the host computer.

Reliable, Reusable
There's a 100% testing of units before shipping. Transmitters have replaceable batteries and straps.

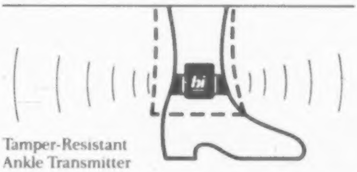
Active System, Wearer-Passive
No late night calls to make or receive so there's no harassment and family privacy is protected.

Concealable, Wearer-Friendly
Worn under the sock, under the trouser; doesn't hamper any kind of work, exercise, or sport. Hypoallergenic, lightweight.

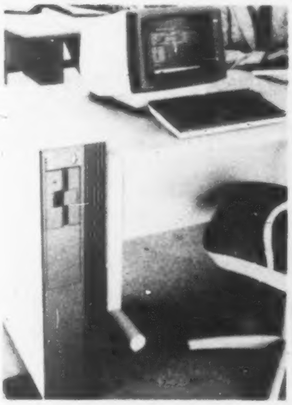
Can't Be Outsmarted
Signals at random, completely silent to the wearer so the system can't be outguessed or outsmarted.

Tough, Trouble-Free
Moisture-proof, shock, and impact-resistant. Functions in a wide range of temperatures.

Home Escort works on existing rotary dial or touch-tone telephone lines. Tamper-resistant.



Tamper-Resistant
Ankle Transmitter



System can go into operation within a week of delivery. Handles up to 200 clients.

Easy to Acquire

By purchase, lease, lease/purchase, or by contract through independent service providers. Cost can also be made entirely or partially self-liquidating, depending on what your jurisdiction allows.

NEW YORK CITY

ORGANIZATION AND ADMINISTRATION

The New York City Department of Correction functions in a dual capacity as both a pretrial and a post-sentence agency. Persons over 16 years of age may be incarcerated as detention or sentenced cases. Sentenced cases, classified as misdemeanants, or "D" and "E" felons serving up to one year (minimum one day). The Department also performs a civil function by holding cases answerable to civil courts of the City of New York.

ORGANIZATION AND ADMINISTRATION

Adult corrections institutions and parole services are provided by the ***Department of Rehabilitation and Correction****; juvenile institutions and parole services are provided by the* ***Department of Youth Services****.*

The ***Parole Board*** *of the* ***Adult Parole Authority*** *is the paroling authority for adult felons. The Adult Parole Authority, within the* ***Division of Parole and Community Services*** *under the Department of Rehabilitation and Correction, may exercise general supervision over all probation officers in the state, including those in county probation departments. All parolees and selected probationers referred by the Common Pleas Court on a contract basis are supervised by the Adult Parole Authority. In the remaining counties, probation services are provided by local probation departments.*

Upon release from an institution, juveniles enter aftercare status of the Department of Youth Services. Parole revocation hearings are conducted in the committing court.

Probation supervision of juveniles is provided by probation officers who are appointed by a Juvenile Court Judge.

ADULT INSTITUTIONS

A person convicted of a felony under Ohio law may be sentenced to a penal institution. Ohio statutes divide male penal institutions into two categories—reformatories and penitentiaries. Male persons, except those convicted of first or second degree murder, between the ages of twenty-one and thirty years of age may be sentenced to a reformatory, if such persons have not been known previously to have served a sentence in a federal, state or other prison or correctional institution, and are persons whom the sentencing court deems amenable to reformatory methods. Males between the ages of eighteen and twenty-one years, other than those convicted of first or second degree murder, must be sentenced to reformatories unless such males have previously served a sentence in a federal or state prison or correctional institution for conviction of a felony. All other males sentenced to a state penal institution are sent to a penitentiary.

Ohio operates one facility for women convicted of a felony and sentenced to a penal institution—the Ohio Reformatory for Women.

JUVENILE INSTITUTIONS

*To be placed into the custody of the **Department of Youth Services**, a juvenile offender must be committed by a county juvenile court for an offense which would be a Felony I, II, III, IV, or a capital offense if committed by an adult. Upon commitment, a youth is placed in the appropriate DYS institution based on a classification system which considers prior offenses, committing office and special program/service needs. All youth who are committed to DYS may, at the discretion of the Department, be institutionalized to age 21, although very few actually are. There are minimum periods of institutionalization as follows: Murder or aggravated murder, until the youth reaches 21 years of age; felonies of the first and second degree, one year; and felonies of the third and fourth degree, six months. It should be noted that many youth are released before the "minimum" period, through a statutory process which requires approval of the committing court.*

JUVENILE PROBATION

Probation of juveniles is administered by probation officers appointed by a Juvenile Court Judge. The Judge may transfer the duties of probation to county probation departments but at no time may a juvenile case be handled by an officer from the ***Adult Division****. The* ***Office of Subsidies*** *within the* ***Department of Youth Services*** *administers a program of state aid to juvenile courts.*

In all but two counties, the Juvenile Court is within the ***Division of Domestic Relations of the Court of Common Pleas****. Cuyahoga County has an independent juvenile court; Hamilton County juvenile court is a separate division of that county's Court of Common Pleas. All juvenile courts have exclusive original jurisdiction over delinquent, neglected, and "unruly" children under 18 and over physically handicapped children up to age 21.*

OKLAHOMA

*Within the **Department of Human Services**, the **Division of Children and Youth Services** is responsible for juvenile correctional institutions, probation services (in all but three counties), and parole services.*

*The **Parole, Review and Hearing Board** is the paroling authority for juvenile offenders. The Board, an administrative hearing body, makes recommendations to the Director of the Department of Human Services, who has the final decision.*

ORGANIZATION AND ADMINISTRATION

Adult institutions come under the jurisdiction of the ***Department of Corrections****. The Commissioner is appointed by the Governor.*

Adult parole cases are reviewed and supervised by the ***Board of Probation and Parole*** *for probationers and parolees whose sentences are more than two years. County probation departments supervise adult cases with sentences of two years or less paroled by county courts. The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of two years or less when paroled and referred to the Board by the county courts; county courts retain authority to revoke, terminate or take other judicial actions in these special cases.*

Juvenile institutions come under the jurisdiction of the ***Office of State Facilities for Deliquent Youth*** *of the* ***Department of Public Welfare's Office of Children, Youth and Families****. Juvenile probation and aftercare are functions of the counties and their officers.*

There are no institutional juvenile parole boards; the Juvenile Court has complete and original jurisdiction over juvenile offenders.

ADULT INSTITUTIONS

Those convicted in adult criminal court and receiving maximum sentences of from two to five years may, at the discretion of the court, be sent to a Correctional Diagnostic and Classification Center for classification and transfer within the state system. Criminal convictions receiving five years or more must be sent to a Correctional Diagnostic and Classification Center. A 23-county region of Western Pennsylvania may send all individuals receiving minimum sentences of at least six months and maximum sentences of less than two years to the regional facility at Mercer.

Parole eligibility occurs at the end of the minimum sentence which may not exceed one-half of the maximum sentence. For certain violent crimes, a mandatory five-year minimum sentence is required. All other cases are sentenced under 1982 sentencing guidelines which require the courts to justify any deviations.

ADULT PAROLE AND PROBATION

*The **Board of Probation and Parole**, a state agency, is responsible for the paroling action and supervision of all adult offenders receiving a sentence of two years or more. Offenders sentenced to a maximum sentence of less than two years are paroled by county courts and supervised by county probation departments.*

The Board also has authority to supervise probation cases and offenders sentenced to confinement with a maximum of less than two years when paroled and referred to the Board by the county courts. The Board has only supervision authority in these special cases; county courts retain authority to revoke, terminate or other judicial actions.

The Board is responsible, by state statute, for establishing uniform state-wide standards for county adult probation services. It also administers a Grant-in-Aid Program which provides funds to counties for the improvement of county adult probation services.

★BOARD OF PROBATION AND PAROLE (FT)

The Board consists of five full-time members, appointed by the Governor with the consent of a majority of the Senate members to serve staggered, renewable six-year terms. Board members are prohibited from engaging in any other employment or political activity.

ADULT INSTITUTIONS

*Responsibility for direct supervision of institutions is divided among three regional administrators who report to the **Deputy Commissioner for Operations**. Because of overcrowded conditions, some state inmates are housed in designated local facilities, as provided for by legislation for a period of one year and may be renewed by mutual agreement of the Department of Corrections and local officials. The office of the Deputy Commissioner for Operations is responsible for placing state inmates in designated local facilities. At the end of FY 1988, there were 55 designated local facilities with 505 Department of Corrections' inmates.*

PROBATION AND PAROLE SERVICES

*The **Board of Probation, Parole, and Pardon Services** is composed of seven members who serve six year staggered terms. The members are appointed by the Governor, with consent of the Senate, one from each of the six congressional districts, with one member-at-large.*

*The **Department of Probation, Parole and Pardon Services** supervises those adults placed on probation by the Court, on parole by the Board and those on early release programs created by the legislature to relieve prison overcrowding. They also develop a range of supervision programs, some as alternatives to incarceration, for use by the judiciary as sentencing options.*

Vested in the Board is the authority to grant paroles, to restore citizenship rights through pardon, and to oversee the operation of the Department.

ORGANIZATION AND ADMINISTRATION

*The **Department of Corrections** operates the state adult correctional institution; its **Field Operations Division** provides adult probation and parole supervision and administers community correctional centers.*

*The **Board of Pardons** is the paroling authority for adults; its decision-making authority is autonomous and uninfluenced although it shares some administrative functions with the Department of Corrections.*

*The **Division of Youth Corrections**, within the **Department of Social Services**, operates the juvenile institutions and provides supervision of its releasees. The Division has its own paroling authority, the **Youth Paroling Authority**, which has jurisdiction of all youth committed to the Division by the Juvenile Court. On July 1, 1987, the Division assumed full administrative and operational responsibility for the state's detention centers. The Division is also responsible for establishing and monitoring standards for licensing all programs in the state that provide services specifically for delinquent youth.*

*The **Division of Juvenile Rehabilitation** provides for care, custody, rehabilitation and community supervision of court committed youth between the ages of 8 and 20. Youths are committed under a presumptive sentencing structure which is reviewed by the legislature. A minimum and maximum are set by the court using sentencing guidelines, or declaring a manifest injustice to set a sentence outside of the sentencing guidelines. A release date between the minimum and maximum is established by the residential facility.*

SOFT CORE™ soft armor

SECOND CHANCE®

The imagination and innovation of Second Chance meets the challenge of the NIJ Standards for soft body armor with the creation of the concept of SOFT CORE,™ a comfort core of soft Kevlar-woven material providing increased ballistic protection over your heart, lungs and spine.

Having the same ballistic deterant factors as its predecessors, SOFT CORE is constructed with fewer layers of stronger Kevlar material producing a thinner, more flexible unit of armor. Additional layers of Kevlar are interwoven in a four-inch strip from top to bottom in the center of each ballistic panel – front and rear.

SOFT CORE ballistics are now available to be worn with our standard SPA and Deep Cover carrier systems.

Call or write for SOFT CORE today!

ORGANIZATION AND ADMINISTRATION

The Federal Bureau of Prisons, established in 1930 by an Act of Congress, is assigned the responsibility for "the safe-keeping, care, protection, instruction, and discipline of all persons charged or convicted of offenses against the United States."

To carry out its responsibilities, the Bureau has a correctional network of 47 correctional institutions ranging from penitentiaries to prison camps. The administration of these facilities is divided into five regions with regional directors headquartered in Atlanta, Dallas, Kansas City, Philadelphia, and San Francisco. Functions such as case management, health and drug abuse programs, education, vocational training and correctional services are delegated to these regions and the individual institutions with coordination and oversight carried out in the Central Office.

U.S. SENTENCING COMMISSION

1331 Pennsylvania Avenue NW, Suite 1400
Washington, DC 20004
Telephone: (202) 662-8800

The Sentencing Commission is an independent agency in the judicial branch charged with promulgating mandatory guidelines for federal judges to use when sentencing individuals and organizations convicted of federal crimes. Created under provisions of the Comprehensive Crime Control Act of 1984, the Commission's goals are to eliminate unwarranted disparity in sentences meted out for similar offenders who commit similar crimes and ensure fairness in sentencing and uniformity of punishment.

The Commission's initial set of sentencing guidelines were submitted to the Congress for review on April 13, 1987, and went into effect on November 1, 1987. The guidelines and related sentencing provisions of the Crime Control Act are applicable to all individuals whose offense occurred on or after November 1, 1987. The guidelines determine the appropriate sentence based on the specific characteristics of the offense and the offender. If incarceration is to be imposed, the guidelines specify a range of months from which the judge must choose a specific sentence. By statute, individuals sentenced under the guidelines are not eligible for early release through parole.

The Commission has ongoing monitoring, amendment, and sentencing education responsibilities. Its seven voting members are appointed by the President with the advice and consent of the Senate. The Attorney General and the Chairman of the Parole Commission also serve on the Commission as non-voting, ex-officio members.

NEWFOUNDLAND AND LABRADOR

ORGANIZATION AND ADMINISTRATION

*Pursuant to the passing of the Adult Corrections Act, 1975, a division of the **Department of Justice** was created whereby the provincial custodial institutions and the probation service were amalgamated. This marked the commencement of the **Adult Probation Services** under the **Community Corrections Branch** of the **Adult Corrections Division**. The population served is adult offenders aged 18 and up; whereas juvenile offenders are served by the **Department of Social Services**, and parole is a responsibility of the Correctional Service Canada.*

*The **Department of Social Services** is the principal agent for the delivery of **Youth Corrections Services**. Youth between the ages of 12-18+ years usually are referred by the youth court upon disposition for case management, but other referrals for voluntary counselling are possible. The services available usually fall into one of four categories, a) alternative measures and dispositional options, b) community corrections, e.g., probation, c) community residential care, and d) secure custody.*

ONTARIO

ORGANIZATION AND ADMINISTRATION

*The **Ministry of Correctional Services** is responsible for young offenders aged 16 and 17, and adults aged 18 years and over on remand or serving sentences of less than two years, as well as those on probation or parole.*

*The ministry is divided into two main divisions: **Operations** and **Corporate Services**. The ministry also has jurisdiction over the **Ontario Board of Parole** which is the paroling authority for inmates serving sentences in provincial institutions.*

The Operations Division is comprised of the Offender Programming branch, Community Corrections branch, and five regions, each with its own regional director and regional managers. All superintendents of provincial correctional facilities and probation/parole area managers report to the regional office.

The probation/parole offices in each region provide services for all young offenders and adults who have been placed under probation supervision by the courts. Staff in these offices also provide supervision for all inmates released from provincial institutions under the authority of the Board of Parole. Probation and parole officers may also be responsible for the supervision of incarcerates released on temporary absence or serving intermittent sentences.

PRINCE EDWARD ISLAND

ORGANIZATION AND ADMINISTRATION

The jails in Prince Edward Island accept remanded and sentenced adult prisoners, both male and female, of the age 18 and over, regardless of the offense. They also act as lock-ups for all police forces in the province. Females are seldom committed to custody.

*In addition, the **Department of Justice** is now responsible for young offenders aged 12 to 17. There are two temporary facilities for young offenders within the province; one is secure custody and the other is open custody. Those requiring short term detention are held separate and apart in designated areas of the adult jails. Three permanent young offender facilities are scheduled to open in late 1988; one will be closed custody and the other two will be open custody. Until such time, those committed to long term custody are housed in institutions in the provinces of New Brunswick and Nova Scotia.*

CODE OF ETHICS

The American Correctional Association expects of its members unfailing honesty, respect for the dignity and individuality of human beings, and a commitment to professional and compassionate service. To this end we subscribe to the following principles.

Relationships with clients/colleagues/other professions/the public—

- Members will respect and protect the civil and legal rights of all clients.
- Members will serve each case with appropriate concern for the client's welfare and with no purpose of personal gain.
- Relationships with colleagues will be of such character to promote mutual respect within the profession and improvement of its quality of service.
- Statements critical of colleagues or their agencies will be made only as these are verifiable and constructive in purpose.
- Members will respect the importance of all elements of the criminal justice system and cultivate a professional cooperation with each segment.
- Subject to the client's rights of privacy, members will respect the public's right to know, and will share information with the public with openness and candor.
- Members will respect and protect the right of the public to be safeguarded from criminal activity.

Professional conduct/practices—

- No member will use his or her official position to secure special privileges or advantages.
- No member, while acting in an official capacity, will allow personal interest to impair objectivity in the performance of duty.
- No member will use his or her official position to promote any partisan political purposes.
- No member will accept any gift or favor of such nature to imply an obligation that is inconsistent with the free and objective exercise of professional responsibilities.
- In any public statement, members will clearly distinguish between those that are personal views and those that are statements and positions on behalf of an agency.
- Members will be diligent in their responsibility to record and make available for review any and all case information which could contribute to sound decisions affecting a client or the public safety.
- Each member will report, without reservation, any corrupt or unethical behavior which could affect either a client or the integrity of the organization.
- Members will not discriminate against any client, employee, or prospective employee on the basis of race, sex, creed, or national origin.
- Members will maintain the integrity of private information; they will neither seek personal data beyond that needed to perform their responsibilities, nor reveal case information to anyone not having proper professional use for such.
- Any member who is responsible for agency personnel actions will make all appointments, promotions, or dismissals only on the basis of merit and not in furtherance of partisan political interests.

Department of Training

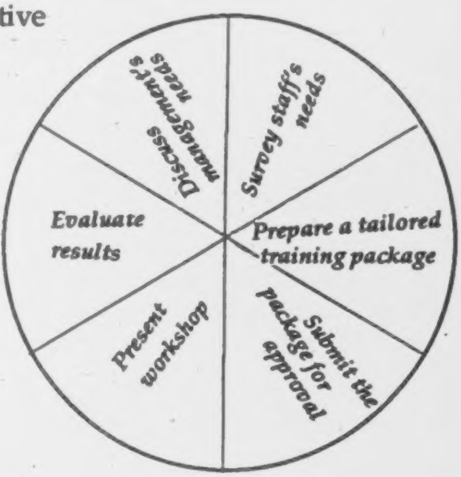
Today, all aspects of the criminal justice system are facing increasing demands for productivity and accountability. On-going training of all persons working with adult and/or juvenile offenders – inside or outside the institution – is essential to everyone's survival.

The American Correctional Association has committed itself to provide quality and affordable training to all components of the criminal justice system. ACA therefore has created a *Professional Development Series* which includes both on-site and subscription training.

On-site Training

On request, ACA staff will design, develop and conduct on-site workshops for criminal justice staff. For each requesting site, ACA will construct a tailor-made training workshop based specifically on the expressed needs of the organization.

- ➢ saves travel and per diem
- ➢ ensures relevant and effective training for all staff
- ➢ provides staff with a different perspective
- ➢ is cost-effective for the organization



Discuss management's needs
Survey staff's needs
Prepare a tailored training package
Submit the package for approval

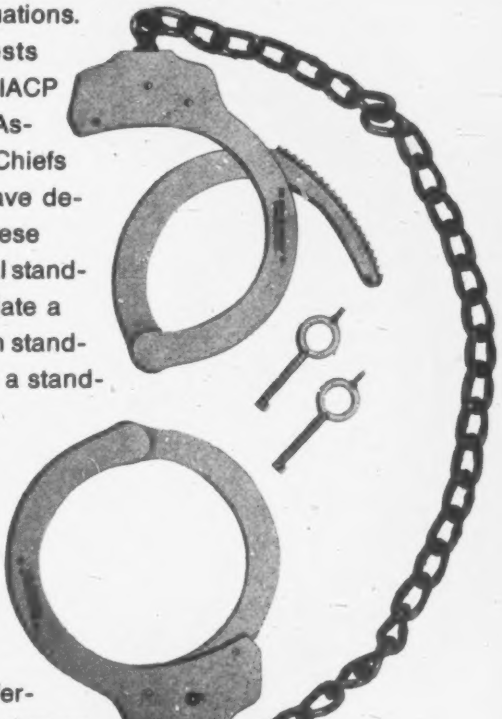
Hinged Handcuffs, permit cuffing in a cross arm position, preventing "stepping" through to bring hands from back to front. Particularly effective in transporting prisoners and in high security risk situations. Independent tests approved by the IACP (International Association of Chiefs of Police) have determined that these handcuffs exceed Federal standards. Can accommodate a 25% larger wrist than standard cuffs and uses a standard handcuff key.



Leg Irons

Peerless leg irons are adjustable shackles built for years of service. They are made to the same rigid specifications as U.S. government approved Peerless handcuffs. They have 19 positive locking positions to a 10" circumference and a strong 15" chain to prevent the prisoner from running. All steel construction with nickle finish and new, improved double lock. Two standard handcuff keys are furnished.

The Case of the Overcrowded Prison:

It was a dark and desperate hour.

"Thirty new commitments are on the way, and we need space fast," the tough administrator demanded. The boys from the governor's office scowled. While the correctional officers stood watch, the restless men clamored.

Then the guy from Gelco Space stepped boldly to the fore. "More space in less time for less money with our mobile and modular units," he promised. "Dormitories, kitchens, standard or custom designs. Even an entire prison. Whatever you need. And you can buy, rent, or lease at any of the more than 80 sales and service locations."

"Simple addition," the astonished group concluded as a ray of sunlight pierced through the walls. One shout rang out: "Reach for the phone. Call Gelco Space, 1-800-523-7918."
